This tour explores several of the historic buildings located at the YMCA of the Rockies in Estes Park, Colorado. This is an easy, fairly flat walking tour. If you decided to add Mountainside Lodge to the tour, be prepared for a steep hike. Mountainside Lodge can be accessed from the top of Bible Point and is situated at the base of Emerald Mountain. Please keep in mind that Mountainside is often reserved for private events and not open to the public. We hope you enjoy this beautiful and historic walk that captures not only the history of the YMCA of the Rockies but also the history of tourism and architecture of the area.
